However, the flight is the world's best effort at continuous flying over long distance. The plane, after a night's rest, was rolled out and the pilots hopped off for long flights for day after day. In all, 12,295 miles were covered, in nineteen elapsed days, two of which were consumed by a Japanese typhoon, and forly-one hours of which were sacrificed to Turkish red tape. We have never encountered in the flesh a t porter who personally and individually objected to recognized system of tipping followed by the public that is, if we could judge by the alacrity and pleasure

exhibited in accepting a gratuity of the traveler. Yet, we will have to reform our opinion on this subject following the action of the Brotherhood of Sleeping Car Porters. This organization, describing itself as an association

of some 7,000 persons of the negro race employed as porters and maids by the Pullman Company," has complained to the Interstate Commerce Commission of the "eustom of gratuity, giving or tipping on the part of passengers, encouraged developed and officially confirmed" by their employer. The petition alleges that the members of its organization are paid approximately \$72.50 per month but this is increased by the average amount contributed monthly by passengers in tips which is approximately \$56.

The public will probably be delighted to learn that the Brotherhood of Porters objects to receiving tips, although we are not quite so sure that this is its real at airplane development, the safety of Some of the people who rush into print are anxious titude. We suspect that the Brotherhood would like to have tips officially ruled out in order to force higher wages, knowing that the many anti-tipping laws in the various states have proved innocuous. The result will be more wages and the same old-time tipping.

Our suggestion to future passengers is that this article be clipped out of this paper, lodged in the pocket for future use and upon the completion of another journey, when the smiling porter awaits expectantly for the customary gift, that the said passenger convey to him his verbal endorsement of the position of the Brotherhood, and, to make his support more effective, express his regret that he is unable to give the usual tip because of his disinclination to violate the wishes of the porter as expressed by his official organization.

### CO-OPERATE IN ADVERTISING.

Many merchants, some of them in Bay St. Louis, are sive. accustomed to think of advertising as a means of taking business from competitors instead of looking upon it as a proper method of stimulating sales of the commodities advertised. ### FASHION FIGHTS CANCER.

Fashion, it seems, has done much for women. It has actually made many of them, and now it is said that the athletic type of clothing is causing many ailments to disappear.

Dr. Paul Strassman, a surgeon from Germany, who is visiting in this country, says that the "hour-glass" figure, the "wasp-waist," and many thickly padded, closefitting garments, which restrain blood circulation and hamper muscular activity, are atrocities that have not been discarded a minute too soon.

Anaemia was named as one disease which has almost entirely disappeared since more sensible clothing has been in vogue. on October 1, a stock law goes into effect in that state which will mean that all live stock of every kind must be kept under fence. Only through such a measure is complete tick eradication possible. The counties in the northern part of the state which have already eradicated the tick are now experiencing a great dairy development that tick infested territories are not able to enjoy.

The Mississippi Development board reports that there are now in Missis.

The Mississippi Development board reports that there are now in Mississippi 4 condenseries, 8 cheese factories and 28 creameries. Of all these dairy industries there are only 4 which are in tick infested counties, From 12 to 14 cheese factories are planned to be built in various towns during the coming year. One condensery paid to the farmers within a radius of 30 miles of its plant a total of \$206,000 in one month. Seventy-five per cent, of the products from that plant move to New Orleans for distribution in Louisians—and other places.

Louisiana is bound to enjoy an expansion in its cattle-raising and darry industries as soon as it passes a stock law and cradicates the tack.—T. E. Dansey in New Ocietas Tribuns. ARD A REAL ONE.

## Advertising Comes Into Its

"Public utility companies will spend \$28,000,000 for advertising this year." Here, in this news item, is food for thought. It makes one wonder if there are still reactionaries who nsist that advertising is useless and

waste of investors' money. Statistics on the strides that advertising expenditure and space have taken, would be of tremendous interest to the student of modern industry and business. In the past twenty years it has unquestionably doubled itself many times. Through the various mediums, and most important of all the newspapers, advertising and publicity have grown to proportions where they are among the greatest forces known for furthering progress and forwardness. The recent unprecedented growth of the public unprecedented growth of the public utilities are directly traceable, in a large degree, to the effect of wide and intelligent advertising. Far from being a waste of investors' money it is a safeguard in that if the company ro product advertised is honest and worth-while, that company's business or sales will increase in direct proportion to the amount of advertising. Progressive business is learning that the only thing better for business than extensive advertising. than extensive advertising, is more extensive advertising plus a good product or service.

# FUR TRIMBED COATS

### SPONSORING DRAPED FULLNESS AT FRONT OR SIDE

We are now showing a most distinctive collection of fur-trimmed coats. Correct in every detail, they conform to the most rigid dictates of the season's mode.

### A MORE FEMININE APPEAL

These new coats give a new feminine grace and feeling of freedom and are luxuriously trim-med in an abundance of fur and draped to introduce the flared effect where most becoming.

### THE COLORS

Taupe, Warm Browns, Pewter Gray, Navy, Tan and Black.

Fur is lavishly used and other furs in twotone mole, novelty dyed ermine in platinum gray or biege and fox.

# BLACK SATIN FROCKS

Softly brilliant and gorgeously flattering are these Black Satin Frocks. They are the choice of every smart woman in choosing a dress for daytime wear. Little of any elaboration is used on most of the fine frocks in this collection, for the rich material needs no embellishments.

Tests by Buick at General Motors Proving Ground and by Buick owners in every section of the world—under every climatic condition —have proved that you need never change your oil if you own a Buick. Replenishments and inspection of the Buick oil-filter only are required. This is still another Buick contribution to the economy and efficiency of motor car operation . . . another indication of Buick's greater value.

On Monday evening, Sept. 19, the Kiln community was greatly charmed by the entertainment put on by the expression department under the direction of Miss Jacqueline Hyde.

The stage was beautifully decorated. Pep, pretty girls, picturesque costumes, clever dances and catchy dialogues were the features of the pro-

ram,
Nell Burke was very much at ease before her audience in the several parts that she played. In their dialogue together she and Gene Crowe were at their best. James Love showed talent and care-

ful training in the prominent part he played in the program.
The Spanish chorus, with the boys (?) in their sombreros, and the girls in their shawls, made a decided 'hit' with the audience.

Athletics. Much enthusiasm was shown in electing captains for the football teams. Lester Necaise was chosen Captain of the first team, and "Buck" Lott alternate captain. For the sec-ond team, Laverne Baker was elected captain and Cornelius Farve alternate captain. Coach Haas has divided his boys into two teams, "The Gators" and "The Bulldogs." These teams are about equally matched. Wednesare about equally matched. Wednesday afternoon they will meet for their first game at the Lott ball park. The students are busy getting up yells and songs to encourage the players.

Agricultural Boys Go to Poplarville.

Friday, Sept. 23, Mr. Lumpkin and his Agriculture class visited the Poplarville Experiment Station.
